BAFFLED BY MYSTERY. POLICE ASK, DID SPIER KILL HIMSELF?

MINERS AGREE TO ACCEPT OLD TERMS FOR THREE YEARS

Peace Insured to Coal Regions Until After Next Presidential Election—Men to Return to Work Under Award of 1903.

All danger of a coal strike for three years was averted this afternoon when John Mitchell and a committee representing the union and President Baer and a committee representing the operators reached an agreement that will be in effect until April 1, 1909.

The operators stipulate to take back all of the men who went out on April 1 without prejudice with the exception of those who personally engaged in acts of violence. The miners agree to be bound by the terms of the agreement formulated by the Arbitration Committee appointed by President Roosevelt four years ago.

In substance the agreement continues the old terms, but there will be some concessions granted the union in the way of changes in the conciliation board. The operators insisted that the agreement should run for three years, and Mr. Mitchell, after a short argument, withdrew his proposition for an annual agreement or for one to expire in the spring of 1908.

Conference for an Hour. The conference between the two committees lasted one hour. At the expiration of the proceedings President Baer appeared at the door of the committee room with a smile on his face. He said he was on his way to dictate a draft of the agreement to a stenographer. When asked what terms had been agreed upon, he said: "Everything is lovely and the goose hangs high."

The stipulations will have to be agreed to by the miners' convention, now in session at Scranton. President Mitchell will report to the convention to-morrow afternoon at 2 o'clock. There is no doubt that the convention will endorse the action the sub-committee took this afternoon. The feeling between operators and employees is better than it has been for months, and the anthracite mines will be in full operation before the end of the week.

President Mitchell, District Presidents Nicholas, Dettrey and Fahy, and District Secretaries Dempsey and Gallagher comprised the miners' committee. District Secretary Hartlein was too ill to attend the meeting.

George F. Baer, W. H. Truesdale, J. H. Kerr, David Wilcox, Morris Williams, E. B. Thomas and J. L. Calk represented the operators. Mr. Truesdale said before the meeting: "The operators will insist upon a contract lasting three years. We don't want a repetition of this trouble in 1908, a Presidential year. The Lackawanna road will take back all the miners who went out on April 1 without prejudice, and I have no doubt the other lines will do the same."

President Mitchell said before the meeting: "The operators will insist upon a contract lasting three years. We don't want a repetition of this trouble in 1908, a Presidential year. The Lackawanna road will take back all the miners who went out on April 1 without prejudice, and I have no doubt the other lines will do the same."

SLOT MACHINES THROWN OUT OF THE SUBWAY

Rapid Transit Board Removes Them from Stations South of Bridge.

The Rapid Transit Commission this afternoon sent men into the subway and yanked out every slot machine south of the Bridge. They got sixteen machines and carted them to their downtown office. This move settles a vital question as far as Ward and the railroad advertising firm are concerned. Once before they put slot machines in the subway south of the Bridge, where they had no right under their contracts, the commission alleged. They were ordered to take them out, and did this time they put them in over night and asked the Rapid-Transit Board.

Application for a restraining order was being made when Chief Engineer Rice took the bull by the horns and threw out the machines. Half an hour after they were out, August Belmont called up Engineer Rice and told him that he knew nothing about the machines being put in, and would himself have had them put out if the Commission had not beat him in it.

IT IS TO LAUGH, DODGERS SHUT OUT CHAMPIONS

Not Only That, but Donovan's Men Score Six Runs.

MAKE WILTSE QUIT BOX.

Giants Could Do Nothing With Pitching of Pastorious, Ex-Albany Star.

Washington, May 7.—The superior pitching of Pastorious this afternoon defeated the Giants by a score of 6 to 0.

It was the second shut out of the season for the Champions. Wiltse was hit hard in the fifth inning and retired in favor of Ferguson. The youngster was in good form and stopped further scoring. Fifteen hundred people saw the contest.

First Inning. Bowerman, who led the batting order for a change, celebrated his return to the game by striking out. Browne, who followed, did the same thing, and Donovan died on a bounder to Pastorious. NO RUNS.

Casey's roller to second was gobbled up by Gilbert. Bathe was an easy strike out and Lumley lifted a long fly to Mortie. NO RUNS.

Second Inning. Casey did good work in throwing out McGinn. A long fly to Maloney wound up Mortie. Dahlen drew a base on balls, but was out stealing second. NO RUNS.

On a grand stand running catch Hickman nabbed Reeder's high fly. Faulkenberger, who is tall enough to place the ball over the plate, hit Elberfeld a crack in the back, sending him to first. Williams sent a hot one to Schaffly, who doubled Elberfeld and the batter, from Nill to Stahl. NO RUNS.

Stahl made Al Orth be on his guard by cracking the ball to deep left, which looked cool for a home run, but fell foul by six inches. Then Mr. Stahl struck out. Jones put a clean single into left. Heydon followed suit with a pretty one to right. Heydon was caught napping at first. Kleinow to Chase. Faulkenberger was called out on strikes. NO RUNS.

Laporte sent an easy fly to Anderson. Chase put a hot single past Cross. Cross dropped Delehan's Texas ONE RUN.

Third Inning. Alperman got Devlin by a great throw and then did the same thing to Gilbert. By a pretty jump Pastorious got Wiltse's bounder and nailed him at first. NO RUNS.

After a long run Donlin speared Casey's drive, which bore a dangerous label. Wiltse then made mincemeat of Bathe. Lumley beat a slow one to McGinn. Jordan fouled a skyscraper to Bowerman. NO RUNS.

Fourth Inning. Bowerman flied to Lumley. Browne flied to left which was New York's first hit of the game. Donlin flied to left. Browne stole second. McGinn flied out. NO RUNS.

Rittsdorf pitched out to Dahlen. Hummel flied the next one to the fence for three bags and scored on Alperman's stinger through Dahlen. MA-

JOCKEY RADTKE ON THREE MORE WINNERS AT JAMAICA

Western Crack Shows Rare Skill on Preen, Go Between and Lester J. Hayman—Halifax Wins Like a Stake Horse.

By T. O. PIPER. RACE TRACK, JAMAICA, May 7.—Following his victory in the fourth race to-day, carrying 126 pounds, Halifax was hailed as one of the best three-year-olds of the year, probably the equal of many of his age of past years, whose names are famous in turf history. His commanding victory with 126 pounds was the talk of the track among the best informed horsemen. Halifax is engaged in several good stakes.

Incidentally "Joe" Cassidy, former President of Queens, and owner Alex Shields won several thousand dollars on Halifax to-day.

Much expression of regret was heard at the track to-day over the untimely

end of Charles L. Spier, of Staten Island, who was murdered by a burglar. Mr. Spier was well known to a coterie of club-house members and a devotee of the sport of kings.

"Timmy" Dunn, the well-known jockey, who has been riding in the South since the meeting at Benning, was a visitor at the track. He is North to stay, he said, and may be seen in the saddle during the Belmont.

Joe Fallert a Good Youngster. The muddy track did not tend to much reduce the field of maiden two-year-olds which went to the post in the first race, Joe Fallert, which ran excellently last week on a dry track, showed his versatility and speed by galloping in a winner in the initial race. Doyle, who is winning his share of mounts, kept the colt in the heaviest going, kept the ball out. Joe Fallert came right on, galloping. Maudslowi and No Marks, both well tried, finished second and third respectively. It was estimated by the race track that the race was fully two seconds slower than the middle of the track to-day. That makes the Fallert only a second maiden.

Radtke's Skill Won. Riders reversed. Toscan, instead of Preen, would have won the second race. That was conceded even by the newly initiated. When the horse got off, security, the paddock tip, had a but position. Thesplan was left, but Preen got the lead, followed by Toscan, which ranged alongside, during the stretch, and prepared to give the final fight to the wire. Radtke, on Preen, and Romanelli, on Toscan, differed. While Preen was slugging with Romanelli, whip and spur applied, while Radtke's and mount, possibly shortening his stride, but easy and graceful, with consummate skill. When the final effort was needed, Radtke lifted Preen across the finish mark a winner by a wide margin. None but the judges could separate the two first contestants. Right and True, liking the going, was three lengths back. Several monumental bank rolls were lost on Security.

More of Radtke's Ability. Herman Radtke's marvelous jockeyship was never better displayed than in the third race when he again rode a winner. Go Between, when he turned to the scales Radtke was applauded. He drove the favorite home in a time when the crowd was all with gossip regarding Go Between and the race. Outrun at the start Go Between trailed behind, but he was hopelessly beaten even when the flying mud squadron hit the head of the stretch. Then the field went wide and Radtke went to work. He roused the rail and was abreast the field in a few strides. Retaining his position Radtke rode desperately, rushing his horse through daylight in the catgloping field. He got the horse up in the very last stride winning by a two furlong margin which was a head before Masanelli. It was a stirring finish.

Once When Radtke Failed. Lady Amelia's conqueror, Halifax, went in the betting in the fourth, for which he opened favorite. The tip went out that the weight might stop him. It didn't. He went off flying, taking several lengths lead, and won driven out from First Premium, which was a head in front of Benevolent. Many bettors closed their eyes to everything but Radtke in the race, but he had to take the mud throughout from the beating hoofs of the flyers in front.

MILAN JURY DISAGREES.

The jury in the trial of "Eddie" Milan disagreed after four hours' deliberation.

Young Financier Found Dead in Home Shot Through the Heart with His Own Weapon—Faithful Dog Was Beside Him.

WAS CONFIDENTIAL AGENT IN H. H. ROGERS'S ENTERPRISES.

Widow Tells How, Awakened by Noise Downstairs, He Went Alone to Face Intruder—No Trace of Burglar, However, Is Found About the Place.

Mystifying features confound the small army of detectives now at work trying to find the burglar who murdered Charles L. Spier, confidential man to H. H. Rogers, and president of the Richmond Light and Railroad Company, after a desperate hand-to-hand struggle early to-day in the Spier home, at No. 7 Tompkins avenue, in the aristocratic Terrace section of New Brighton, Staten Island.

So far only one fact dealing with the actual killing seems to be well established, and that is that Mr. Spier was slain with a bullet from his own revolver.

What puzzles the police more than anything else was the conduct of the victim's dog, a vicious bulldog, which followed Spier when he went downstairs to grapple with the thief who was rifling the dining-room. Apparently the dog never offered to attack the marauder before, during or after the fight, nor did it follow him when he fled.

Other than a supposition that the burglar was some one whom he dog knew there are few theories to work on. No one can be found who saw the intruder enter or leave the house. A bloodied hand-print on a rear door supp. is the only tangible positive clue thus far uncovered after a whole day of investigating and searching.

Suggestion of Accident. When Eva Olechoss, a servant girl, reached her master's dead body she found Mrs. Spier lying unconscious upon the corpse. At the dead man's feet the dog was crouched, trembling all over. In a few minutes it slunk away to Mrs. Spier's room, where it retreated under a bed, apparently very much frightened. Late this afternoon the dog was still excited. Yet it had always been an unusually courageous animal, ready to attack strangers without provocation. The dog's behavior was largely responsible for the suggestion which began to find converts late in the day that Mr. Spier
